

# RTIconnect

Simplify Operations. Run Better Restaurants.

**RTIconnect simplifies the task of running a restaurant, helping managers consistently achieve operational and financial goals.** Purpose-built for the needs of quick service and fast casual operations, RTIconnect leverages 30 years of industry expertise to provide the insight and control you need to lead your team to success and run more profitable restaurants.

## What Sets RTIconnect Apart?

### Built for Quick Service & Fast Casual

RTIconnect is built on the foundation of more than 30 years of experience serving quick service and fast casual restaurants.

### Available To Go

With web reports, automated reports and alerts, online schedules for crew members and the RTIconnect mobile app, your team gains access to the information they need to get the job done.

### POS Independent

RTIconnect works with the systems you need, including all major POS systems, food distribution vendors, drive thru timers, accounting software and payroll and hiring systems.

### Action-Focused

With RTIconnect, you gain insight into your data that identifies problems and lets you take immediate action before the problem gets worse.

## Increase profitability and efficiency with RTIconnect.

### Food Cost Management

Uncover excessive or fraudulent waste on the day it occurs, so you can act immediately.

### Inventory Management

Track your inventory at all times—including sales, transfers, waste, LTOs, and purchases—so you always know what you have on-hand and can create balanced orders.

### Employee Schedules

Create schedules in half the time. RTIconnect uses sales trends, history, and employee availability to create efficient employee schedules.

### Sales Reporting

Monitor all sales information with comparative (store vs. store, store group vs. store group) and trend (day-to-day) sales reports.

### Dashboards & Alerts

See how your restaurants are running in one glance with multiple dashboards, alerts, and notifications.

### Cash & Till Management

Protect your revenue at every accountability point. Calculate over/short by cashier, track cashier history to spot problem trends, and create a Daily Cash Report including sales, paid outs, deposits, over/short, etc.

### Enterprise Reporting

View the information you need from anywhere, so you always know where your attention is needed and can easily identify the source of issues.

### Forecasting

Depend on your sales forecasts—created from your sales history—to determine future hourly sales and product mix.

## A Secure Foundation

The infrastructure behind RTIconnect is designed for security, uptime, and scalability. Our back-office software is used daily in thousands of restaurants. With proven scalability, RTIconnect can fit companies with more than a thousand restaurants in one database.

### Our robust network infrastructure includes:

- ✓ 24x7 monitoring.
- ✓ SSAE 16 Type II Audit Certified accredited data center.
- ✓ Offline mode that maintains critical store functions during an Internet outage.
- ✓ Off-site backups at Iron Mountain, the world leader in data backup and recovery.

## See It in Action
